Trio

Professional Rack Cabinet For Cost Effective Network Infrastructures

Elegant Trio rack series offers the permanent solution for management of Network devices and cables. The unique, flexible and effective range is the ideal solution to support the Network and server applications with its welded and durable structure.

Elegant IT rack networking Cabinet are intended for installation of data and telecommunication devices and their distribution systems. Mostly used for structured network cabling systems in office environments, Also to be used in computer-rooms and small or large sized data-centers. A lot of options for doors, side- and rear panels, as well as many different accessories, make the use of the enclosure very flexible.

Removable side and rear panels allow comfortable and easy access to the installed devices for maintenance from all sides of the cabinet. For active cooling it is possible to install an optional fan-unit into the roof or 19inch rack mount type fan units.

Vertical mounting rails are adjustable throughout the entire depth of the cabinet and have very high carrying capacity with 1.5mm thickness. Silk-screen mounting rails are providing ability to count U-Marking from top to down & down to up for easy device installation.

*Combination of
Elegance and strength*

Professional Network Cabinets

Protect your device against overheating by choosing the right fan module.

We offer a wide product range of ventilation units with the different fan modules.

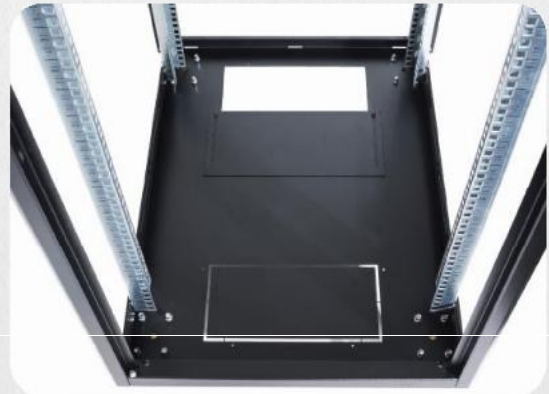

On/Off switch Fan modules Analog or digital
Thermostat control unit Fan modules

M-Joint cable entry panels located on the top cover designed for easy cabling and High-density cabling.
Dimensions w: 300 – D: 56 mm

Sliding & M-Joint cable entry panel located on the bottom plates has been designed for easy cabling and High-density cabling by using cable entry panels with the dimensions w: 300 – D: 125 mm

Vertical mounting rails are adjustable throughout the entire depth of the cabinet and have very high carrying capacity with 1.5mm thickness, Silk-screen mounting rails are providing ability to count U- Marking from top to down & down to up for easy device installation
